

THE EXPERIENCE

Chill out your body and mind, spend a weekend in Sayulita and give yourself some time to relax and rejuvenate.

Enjoy a yoga class, paddleboarding or an early morning surf, then relax by the roof top pool. Intertwine your weekend with I.V. therapy, massage, craniosacral therapy and beauty and skin treatments to make you feel amazing on the inside and radiate on the outside.

You will feel refreshed and rejuvenated all the while looking younger and more vibrant. A little time away with the team at 88 Degrees will transform you into a New You!
