Gift of the Gods Cacao Ceremony:

Ceremonial Cacao (cacahuatl in native Nahuatl language) has been a part of indigenous Mexican culture with its use predating colonial times. Still revered as a potent medicine, cacao has the ability to enhance blood flow and open the heart. In ceremony together, cacao and tantric breathwork promotes an expansive and lucid state, perfect for supporting a more open and intimate union between a couple.

Guided Erotic Massages

From light touch of the erogenous zones to enlightening lingam and yoni healing massage. Choose from the level of intimate instruction you wish to receive during your sumptuous honeymoon in paradise. The Erotic Massage session can be customized to meet your specific wants and desires, leaving you feeling enthusiastic to go even further with your beloved. Warning: You may never leave your honeymoon suite!

What is a yoni?

Yoni is the Sanskrit word which refers to the female sex center and translates to "sacred space." A yoni massage includes instruction on how to bring a woman to full arousal, how to support her in feeling calm, centered, sensually activated and fully receptive while also learning what turns her on and how her anatomy functions.

What is a lingam?

Lingam is the Sanskrit word for the male sex center and translates to "a symbol of divine generative energy," which is often simplified into phrases such as "wand" or "pillar" of light. Vajra is similarly used, however, translates to thunderbolt or diamond. The male sex organs are revered as spiritually and energetically powerful in the Tantric tradition, and so Lingam Massage involves a series of techniques to help awaken a man to his full sacred, sexual power.

What is Yab Yum?

Yab Yum is a traditional Tantric couples meditation position, often used to create a meditative experience of unity between two people before engaging in Tantric Sex. It can be accompanied with affirmations or mantras chosen to bring the couples into a deeper state of pleasure and spiritual togetherness.
